Group funding update

The Group has completed a secured green portfolio financing of €200 million for a 5-year term, as previously announced in its Integrated Annual Report published on 22 March 2023. This is in line with the Group's strategy to access different sources of funding and strengthen its relationships with banking partners. The funding was secured at a competitive level of pricing, in the current market conditions, by reference to Euribor rates.

The loan proceeds will be used to repay the revolving credit facilities utilised for the acquisition of Forum Gdansk and Copernicus Shopping Centre, completed in December 2022. Subsequently, the Group's revolving facility capacity will be restored to €620 million.

Rüdiger Dany, CEO, said: "The scrip dividend take-up rate of almost 85% is a strong endorsement of the Company's business strategy and confidence in our future prospects. Together with the new €200 million secured green financing, we have established a diversified and well-balanced capital structure that will support the momentum of growth in the business. We believe it is important to maintain conservative gearing, which has now been reduced to below 35%, during periods of economic challenges. The Company has adequate and diversified resources to finance its current development and investment plans."
